Experience

FRESHER | ENTRY LEVEL

- Currently I am working as an **Intern Cost Control and Data Processing Specialist** for MSC Shared Service Center, Riga responsible for conducting business analysis and creating and maintaining automated processes using C# and Microsoft SQL Server.

I have been successful in detecting and correcting the flaws and effectively decreased the occurrences, improving the runtime for my allocated countries from an average time of 8 seconds to 5 seconds.

- I have worked as an **Intern Data Analyst** for a period of 1 month, in **Brainnest** and exposure to Statistical Data Analysis and Hypothesis Testing (T-tests, U-tests, ANOVA).

- I have worked as a **Volunteer Data Analyst** during the COVID 19 vaccination drive for my locality. We were to entry, work and provide recommendations with the data. We were to look through the stored data, **check for its integrity, its reliability and then used it for getting needed insights.**

- I have worked as a **Tutor**, after completing my Bachelor's, teaching Physics to some of my neighbours and relatives to prepare them for their High School Examination. For this, I learnt how to **breakdown, simplify the more technical concept** into something they could understand and provide them with practical concepts and views so they could learn efficiently.

- I have worked as a **Volunteer** for **D.E.S.M.E** (DIRECTORATE OF ECONOMICS, STATISTICS, MONITORING & EVALUATION), Government of Sikkim. We were to take part as a member of survey conducting team and collect data from given area in a spreadsheet. Later, we checked for data integrity and then those data were submitted to D.E.S.M.E.

- I have worked as an **Intern Electrical Engineer** , for a period of 3 months, in National Hydroelectric Power Corporation (510 M.W), Sikkim.
